

Project Progress Report -2

Name: Thanvendra Eswar Amara

Student ID: 02035530

Git User ID: amarathanvi

Project: CarKonnnect: An app to find used cars and spare parts

What Am I Proud about:

- I have updated the page with Enter make/model column and search button on the top right
- Also added the pictures to the page and designed them nicely
- I have written the CSS part for the Landing page and About
- I have improved the user interface compared to last week

Next Steps :

- Need to connect with API's
- Work on backend frame work
- Collect the data for used cars
- Need to create extra buttons
